

POROUS METAL FILTER-MUFFLERS

allied witan company

Male - 10-32 - 2"

Female - 1/8" - 1/2"

ECONOMICAL CHOICE FOR MANY FILTERING AND MUFFLING SCENARIOS

- Filter-Mufflers have selective permeability with optimum filtering and diffusion for air and other gases and liquids
- Tough standard porous bronze metal filter in 40 Micron provides strength and performance
- Effective for many purposes, including muffling air valve noise; filtering exhaust and intake air; cryogenic phase separation; coalescing of oil mist and water vapor; and pressure or vacuum equalization
- Compact, inexpensive and easy-to-use muffler is suitable for use where space is limited
- Modifications are available using Stainless Steel, Brass, or other Microns
- Recommended for general purpose air exhaust applications for pressures up to 125 psi (8.6 Bar)

Male 40 Micron - Porous Bronze Element

Conn Size	Model Type	NPT	BSPT	Dimensions	
		Item Number	Item Number	Hex	Length
10-32	P08	0155008*	-	.37	.79
1/16	P16	0155016	-	.37	.79
1/8	P18	0155018	0556018	.43	.89
1/4	P28	0155028	0556028	.56	1.28
3/8	P38	0155038	0556038	.69	1.52
1/2	P48	0155048	0556048	.87	1.98
3/4	P68	0155068	0556068	1.06	2.28
1	P88	0155088	0556088	1.31	2.96
1-1/4	P108	0155108+	0556108+	1.68	3.36
1-1/2	P128	0155128+	0556128+	2.00	4.00
2	P168	0155168+	0556168+	2.37	4.70

* This size with Brass Fitting + These sizes are 90 Micron

Female 40 Micron - Porous Bronze Element

Conn Size	Model Type	NPS	Dimensions	
		Item Number	Hex	Length
1/8	P18	0255018	.56	1.25
1/4	P28	0255028	.69	1.45
3/8	P38	0255038	.87	1.89
1/2	P48	0255048	1.06	2.12

Also Available: 10, 20, and 90 Micron in NPS thread
